

BK-20(Automatic belt loop cutting device)

The BK-20 has a maximum production rate of 200 pieces per minute

* depend on the length of the belt loop

Specification

1. Power source : Available in the following voltages
(all AC single phase) 100, 115-120, 200, 220-240
1. Power consumption : 25W
2. Installation style : Directly on the tabletop or separate table
3. Cutting rate (production rate) : Up to 200 cuts per minute
4. Size range of belt loops : 50~150mm
5. Maximum cutting width : 30mm
6. Production counter : 0~9999 pieces
