FX series is cylinder bed, double chain stitch machine with vertical looper movement mechanism. It can be used for attaching elastic and line tape to sweat pants, pajamas, trunks and similar garments. Major features of this series are the wide range of available gauge size (4 ~ 25 needle), cylinder bed (420mm in circumference), elastic guide rollers and KANSAI SPECIAL's original rear puller mechanism. These features make this series popular for attaching pre-closed elastic. KANSAI SPECIAL's unique automatic thread cutter (UTC) increases productivity by trimming threads accurately and leaving less thread, which curtail the production cost.
